Educational Qualifications

Year	Degree/Certificate	Institute	CPI/%
2019(Expected)	Dual-Degree(B.Tech-M.Tech)	Indian Institute of Technology, Kanpur	8.9/10*
2014	Higher Secondary Education	Shivaji Science College, Nagpur	90.15%
2012	Secondary Education	D.A.V Public School, Akola	99.64%

* *current*

Achievements

- Received **Academic Excellence Award (IIT Kanpur)** for distinctive performance in the academic term 2015-16
- Recieved a **Pre-Placement Offer** from Nutanix Software India Pvt Ltd for exceptional performance in Summer Internship
- Selected for fellowship in **Kishore Vaigyanik Protsahan Yojana (KVPY)**(SX Stream)
- Participated in various events of **Regional DNA Fest** conducted by **Bharti Vidyapeeth University(BVIEER), Pune**
- Awarded **Second Best Sectional Award** for building an Effective Irrigation System model in the course TA201 IIT Kanpur
- Secured 3rd position in **FPGA Design Challenge**, at Techkriti 2016, annual Intercollegiate Technical Festival of IIT Kanpur

Internships

- **Nutanix Software India Pvt Ltd, Bangalore**
  MTS Intern *May'17-July'17*
  - Studied the architecture of Nutanix DRaaS(Disaster Recovery as a Service)
  - Developed libraries and workflows in nutest (Nutanix automation framework) for various scenarios in DRaaS
  - Automated, modified and executed test suites using nutest to cover the positive and negative code paths of DRaaS
  - Tracked, identified and logged bugs using JIRA and worked closely with DR team to fix them

- **Okul Education Solutions Pvt Ltd, New Delhi**
  Stack Developer *May'16-July'16*
  - Maintained, developed and analyzed new features for Okul, an online application that aimed at giving on-line education for school level students using ASP.NET MVC(Model View Controller) Entity Framework
  - Extensively involved in creating Views and Partial Views using Scaffolding Templates Custom Html Helpers and Razor View Engine on ASP.NET MVC Framework
  - Used AJAX, JSON with jQuery for data request and response processing, Amazon Web Services to store and retrieve files and Google, Facebook OAuth2 services to build a Social Authentication Feature
  - Developed and simulated the Item Response Theory

Key Projects

- **[Block Chain] Distributed Application to log user activity on OARS**
  Mentored by ***Prof. Sandeep Shukla*** *Aug'17-Nov'17*
  - Aimed at logging activities of students, professors and admins on Online Academic Registration System(OARS)
  - Used Public Key Infrastructure(PKI) on a permissioned and distributed blockchain using Multichain
  - Implemented Principal of Least Privileges on a central MySQL server and a permission server for blockchain stream

- **[Computer Systems Security] Securing Zoobar Web Server**
  Mentored by ***Prof. Sandeep Shukla*** *Jan'17-April'17*
  - Studied the architecture of the zoobar web server - a model of OKWS web server for building fast and secure web services
  - Exploited security vulnerabilities using Control Hijacking techniques, Privilege Escalation techniques, Buffer Overflow attacks, broswer-based attacks like SQL Injection, Cross Site Scripting, Cross Site Request Forgery and Cookie Thefts
  - Improved applications security using Stack Canaries, Privilege Separation and Server-Side Sandboxing

- **[Compilers] Compiler for Scala**
  Mentored by ***Prof. Amey Karkare*** *Jan'17-April'17*
  - Programmed a Scala to NASM(an 80x86 and x86-64 assembler) compiler with support for basic data-types, conditional statements, looping statements, arrays, type checking, basic type inference, nested functions and recursion
  - Implemented lexer, parser, register allocation algorithm, symbol table, optimization algorithm, advanced three address code, assembler and abstract syntax tree for various Scala language features
  - Developed extra features like default parameter value of functions, classes and special data-structure(list) to store graphs

- **[DBMS] AuctionBase**
  Mentored by ***Prof. Medha Atre*** *Jan'17-April'17*
  - Analyzed and parsed the large volume of data downloaded from eBay website and designed a good relational schema for it
  - Implemented triggers and various integrity constraints in order to maintain data integrity and consistency
  - Developed back-end to manage Auctionbase data using the SQLite database management library and user friendly front-end for real time auction

- **[Distributed Systems] HBase for Prutor**
  Mentored by ***Prof. Satyadev Nandakumar*** *Aug'16-Nov'16*
  - Studied the architecture of HBase, its limitations and advantages in comparison with traditional MySQL database
  - Experimentally analyzed Select and Insert query on HBase and MySQL using multi-threading
  - Compared the performance of MySQL and HBase on different scenarios(queries per sec) and made conclusions accordingly

- **[Algorithms and Web Technologies] Automatic Room Allocation**
  Mentored by ***Prof. Satyadev*** *and* ***Prof. Kurur*** *Aug'16-Nov'16*
  - Built an application to allocate best possible rooms to hostel students in their respective wings according to their preferences
  - Modified the Stable Marriage algorithm and Hungarian/Munkres algorithm and used their combination to find best matching pair of students for a particular room

- **[Operating Systems] NachOS**
  Mentored by ***Prof. Mainak Chaudhari*** *Aug'16-Nov'16*
  - Implemented system calls pertaining to Fork, Exec, Join, Yield, Sleep and Exit for NachOS (a rudimentary OS)
  - Programmed different signal handling methods, process scheduling and page replacement algorithms and evaluated their relative performance

- **[Machine Learning] Wildlife Conservation Project**
  Mentored by ***Prof. T.V Prabhakar*** *Dec'15-Jan'16*
  - This project aimed to identify areas vulnerable for tigers in a national park to minimize their killing by poachers
  - Generated data facilitating formation of clusters and incorporated attributes like terrain, month and time of killing
  - Built SVM (Support Vector Machine) trained over this data to get coefficients of hypothesis resulting in 80% accuracy

- **[Discrete Maths] Picks Theorem Analysis**
  Mentored by ***Prof. Rajat Mittal*** *Sept'15-Nov'15*
  - Studied the proof of Picks theorem using Induction and Eulers formula
  - Studied the relation between Picks theorem and Fareys sequence
  - Extended the theorem to calculate area of polygons having holes

- **[Machine Learning] Gesture Recognition Using IMU Sensor**
  Mentored by ***Electronics Club IIT Kanpur*** *May'15-Jun'15*
  - Collected, filtered and processed the data of Yaw, Pitch and Roll from an IMU sensor using Matlab
  - Studied Neural Network architectures and trained the network to recognize 10 gestures that achieved 90% accuracy
  - Built an interface using java.awt.project library in Matlab to operate different keyboard keys and mouse cursor using gestures

Technical Skills

- **Programming Languages :** C/C++, Python, Haskell, C#, HTML, CSS, Javascript, Verilog, Php
- **Software and utilities :** Latex, Git, Matlab, Django, Visual-Studio, PyCharm, R-studio, SQL Server
- **Platforms :** Linux and Windows

Relevant Courses

- **Computer Science :** Data Structure and Algorithms I/II, Fundamentals of Computing, Computer Organisation, Computing Laboratory I/II, Operating Systems, Theory of Computation, System Security, DBMS, Compiler Design and Analysis, Computer Networks, Machine Learning Techniques
- **Mathematics :** Probability and Statistics, Linear Algebra, Abstract Algebra, Discrete Mathematics, Introduction to Logic, Introduction to Calculus, Complex Variables, Numerical Methods

Positions of Responsibility

- **Student Guide, Institute Counselling Service** *Jul'15-Apr'16*
  - Guided group of 8 freshmen in their induction into the institute, gave them academic as well as moral support
- **Secretary, Electronics Club** *Jul'15-Apr'16*
  - Worked to initiate lectures and various activities in club
- **Tiger Ambassador of Akola City:** *May'10-May'11*
  - Managed various natural activities in **Akola** city under the guidance of **Satpuda Foundation** and **Kids for Tiger**
