

Shubham Sharma

Fourth Year Undergraduate Student
Department of Computer Science and Engineering, IIT Kanpur

Phone:+918960808801
Email:smsharma@iitk.ac.in,
sharma.shubham736@gmail.com

Educational Qualifications

Year	Degree/Certificate	Institute	CPI/%
2018(Expected)	Bachelor of Technology	Indian Institute of Technology, Kanpur	8.7/10*
2014	Higher Secondary Education	Shivaji Science College, Nagpur	90.15%
2012	Secondary Education	D.A.V Public School, Akola	99.64%

* *current*

Achievements

- Received **Academic Excellence Award (IIT Kanpur)** for distinctive performance in the academic term 2015-16
- Received a **Pre-Placement Offer** from Nutanix Software India Pvt Ltd for exceptional performance in Summer Internship
- Selected for fellowship in **Kishore Vaigyanik Protsahan Yojana (KVPY)**(SX Stream)
- Participated in various events of **Regional DNA Fest** conducted by **Bharti Vidyapeeth University(BVIEER), Pune**
- Awarded **Second Best Sectional Award** for building an Effective Irrigation System model in the course TA201 IIT Kanpur
- Secured 3rd position in **FPGA Design Challenge**, at Techkriti 2016, annual Intercollegiate Technical Festival of IIT Kanpur

Internships

- Nutanix Software India Pvt Ltd, Bangalore**
MTS Intern *May'17-July'17*
 - Studied the architecture of Nutanix DRaaS(Disaster Recovery as a Service)
 - Developed libraries and workflows in nutest (Nutanix automation framework) for various scenarios in DRaaS
 - Automated, modified and executed test suites using nutest to cover the positive and negative code paths of DRaaS
 - Tracked, identified and logged bugs using JIRA and worked closely with DR team to fix them
- Okul Education Solutions Pvt Ltd, New Delhi**
Stack Developer *May'16-July'16*
 - Maintained, developed and analyzed new features for Okul, an online application that aimed at giving on-line education for school level students using ASP.NET MVC(Model View Controller) Entity Framework
 - Extensively involved in creating Views and Partial Views using Scaffolding Templates Custom Html Helpers and Razor View Engine on ASP.NET MVC Framework
 - Used AJAX, JSON with jQuery for data request and response processing, Amazon Web Services to store and retrieve files and Google, Facebook OAuth2 services to build a Social Authentication Feature
 - Developed and simulated the Item Response Theory

Key Projects

- [Computer Systems Security] Securing Zoobar Web Server**
Mentored by Prof. Sandeep Shukla *Jan'17-April'17*
 - Studied the architecture of the zoobar web server - a model of OKWS web server for building fast and secure web services
 - Exploited security vulnerabilities using Control Hijacking techniques, Privilege Escalation techniques, Buffer Overflow attacks, browser-based attacks like SQL Injection, Cross Site Scripting, Cross Site Request Forgery and Cookie Thefts
 - Improved applications security using Stack Canaries, Privilege Separation and Server-Side Sandboxing
- [Compilers] Compiler for Scala**
Mentored by Prof. Amey Karkare *Jan'17-April'17*
 - Programmed a Scala to NASM(an 80x86 and x86-64 assembler) compiler with support for basic data-types, conditional statements, looping statements, arrays, type checking, basic type inference, nested functions and recursion
 - Implemented lexer, parser, register allocation algorithm, symbol table, optimization algorithm, advanced three address code, assembler and abstract syntax tree for various Scala language features
 - Developed extra features like default parameter value of functions, classes and special data-structure(list) to store graphs
- [DBMS] AuctionBase**
Mentored by Prof. Medha Atre *Jan'17-April'17*
 - Analyzed and parsed the large volume of data downloaded from eBay website and designed a good relational schema for it
 - Implemented triggers and various integrity constraints in order to maintain data integrity and consistency
 - Developed back-end to manage Auctionbase data using the SQLite database management library and user friendly front-end for real time auction

- **[Distributed Systems] HBase for Prutor**
Mentored by **Prof. Satyadev Nandakumar** Aug'16-Nov'16
 - Studied the architecture of HBase, its limitations and advantages in comparison with traditional MySQL database
 - Experimentally analyzed Select and Insert query on HBase and MySQL using multi-threading
 - Compared the performance of MySQL and HBase on different scenarios(queries per sec) and made conclusions accordingly
- **[Algorithms and Web Technologies] Automatic Room Allocation**
Mentored by **Prof. Satyadev and Prof. Kurur** Aug'16-Nov'16
 - Built an application to allocate best possible rooms to hostel students in their respective wings according to their preferences
 - Modified the Stable Marriage algorithm and Hungarian/Munkres algorithm and used their combination to find best matching pair of students for a particular room
- **[Operating Systems] NachOS**
Mentored by **Prof. Mainak Chaudhari** Aug'16-Nov'16
 - Implemented system calls pertaining to Fork, Exec, Join, Yield, Sleep and Exit for NachOS (a rudimentary OS)
 - Programmed different signal handling methods, process scheduling and page replacement algorithms and evaluated their relative performance
- **[Machine Learning] Wildlife Conservation Project**
Mentored by **Prof. T.V Prabhakar** Dec'15-Jan'16
 - This project aimed to identify areas vulnerable for tigers in a national park to minimize their killing by poachers
 - Generated data facilitating formation of clusters and incorporated attributes like terrain, month and time of killing
 - Built SVM (Support Vector Machine) trained over this data to get coefficients of hypothesis resulting in 80% accuracy
- **[Discrete Maths] Picks Theorem Analysis**
Mentored by **Prof. Rajat Mittal** Sept'15-Nov'15
 - Studied the proof of Picks theorem using Induction and Eulers formula
 - Studied the relation between Picks theorem and Fareys sequence
 - Extended the theorem to calculate area of polygons having holes
- **[Machine Learning] Gesture Recognition Using IMU Sensor**
Mentored by **Electronics Club IIT Kanpur** May'15-Jun'15
 - Collected, filtered and processed the data of Yaw, Pitch and Roll from an IMU sensor using Matlab
 - Studied Neural Network architectures and trained the network to recognize 10 gestures that achieved 90% accuracy
 - Built an interface using java.awt.project library in Matlab to operate different keyboard keys and mouse cursor using gestures

Technical Skills

- **Programming Languages :** C/C++, Python, C#, HTML, CSS, Javascript, Verilog
- **Software and utilities :** Latex, Git, Matlab, Weka, Visual-Studio, PyCharm, R-studio, SQL Server Management Studio
- **Platforms :** Linux and windows

Relevant Courses

- **Computer Science :** Data Structure and Algorithms I/II, Fundamentals of Computing, Computer Organisation, Computing Laboratory I/II, Operating Systems, Theory of Computation, System Security, DBMS, Compiler Design and Analysis, Computer Networks, Machine Learning techniques
- **Mathematics :** Probability and Statistics, Linear Algebra, Abstract Algebra, Discrete Mathematics, Introduction to Logic, Introduction to Calculus, Complex Variables, Numerical Methods

Positions of Responsibility

- **Student Guide, Institute Counselling Service** Jul'15-Apr'16
 - Guided group of 8 freshmen in their induction into the institute, gave them academic as well as moral support
- **Secretary, Electronics Club** Jul'15-Apr'16
 - Worked to initiate lectures and various activities in club
- **Tiger Ambassador of Akola City:** May'10-May'11
 - Managed various natural activities in Akola city under the guidance of Satpuda Foundation and Kids for Tiger

Extra-Curricular Activities

- **Bird Watching:** Attended various natural camps and worked with NGOs for bird conservation
- **Photography:** Covered events in Udghosh and Antaragni at IIT Kanpur and did wildlife photography
- **Teaching:** Taught 12th standard students in Prayas Club, IIT Kanpur
- **Dodge Ball:** Participated as dodge ball player in the 6th Maharashtra State Junior Dodge Ball Championship, Solapur 2012
